Join New York University in the first steps toward the Future of Orthodontics.

Meet us this Fall in New York City.

Presymposium October 19-22, 2015

Come to New York for a week of immersion on the latest advances in orthodontics. Get hands-on training on accelerated tooth movement procedures. Meet the orthodontists and professors who are shaping the future of our specialty.

The program includes:
- Latest research and clinical practice advances in orthodontics
- Didactic lectures and live demonstrations
- Hands-on training on accelerated tooth movement procedures
- Program reading/study materials
- Mechanotherapy in Orthodontics Vol. 1 App for iPad
- Official group photos with course professors
- Daily Continental breakfast, coffee break and lunch
- Closing luncheon and Continuing Education credit issuance
